

Davidson Declares Will Recommend Investigation Ike Buffin Case Continue

The grand jury which was called into special session last Tuesday to investigate the killings of Ike Buffin and Joe McKnight, which occurred Saturday night and Sunday night respectively, recessed yesterday afternoon without finding any bills of indictment in the Buffin case, although an indictment was returned against J. P. Pole, charging him with the murder of Joe McKnight.

The grand jury asked to be recessed until county attorney Casey has time to investigate certain information which he has in his possession, regarding the Buffin case.

The following report was returned by the grand jury:

We, your grand jury for the June term of your court, called together by your honor on the 17th day of July, to investigate the matters given us in charge on said date, beg to request of the court that we be recessed for a few days.

The county attorney has certain information which he desires to work upon, and we have requested him to notify the court when it is proper for us to reassemble to complete our investigation.

We ask the court to call us together again when you are notified by the county attorney that he is ready for us.

J. F. ROSBOROUGH,

Foreman.

Leutenant Governor Davidson, when interviewed late yesterday afternoon after he had been visited by Captain Nichols in reference to the case, said:

"I hope they secure and convict the parties guilty of the killing of Ike Buffin, and if the first investigation does not result in convictions I hope that officers will continue to work on the case. I shall recommend that they do so."
